VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are prepared from the native herbs found on the lower ranges of the Sierra Nevada mountains, which are extracted therefrom without the use of Alcohol. The operation is almost daily acted upon. "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicinal compound, possessing such remarkable qualities as VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aspermic, Diaphoretic, Cathartic, Nutrient, Laxative, Diuretic, Sedative, Counter-Irritant, Soporific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful ingredient that ever entered the making system.

No Person can take these Bitters according to directions, and remain unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially subject to the Mississippi, Ohio, Missouri, Illinois, Colorado, Cumberland, Arkansas, Red, Tennessee, Brazos, Rio Grande, Florida, Alabama, Georgia, South Carolina, James, and many others, with their vast tributaries, throughout our entire country during the months of June and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by distressing derangements of the stomach and liver, and other abdominal viscera. In their treatment, a pure, potent and healthy influence upon those various organs, is essentially necessary. There is no cathartic in the composition of DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored, bilious matter, and when the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring its healthy functions of the digestive organs.

Fortify the body against disease by purifying all its elements. These BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Cough, Tightness of the Chest, Disappears, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the Region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a powerful remedy of its merits than a lengthy advertisement.

Scurful, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck Glands, Scrofulous Inflammations, Ischadic Inflammations, Movable Obstructions, Sores, Eruptions of the Skin, Sores Eyes, &c. In them, do all other constitutive diseases, VALERIAN VINEGAR BITTERS, have shown their great curative powers in the most obstinate and intricate cases of the system.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Gunpowder, Type-setting, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Nerves. To guard against this, take a dose of WALKER'S VINEGAR BITTERS.

For Skin Diseases, Eruptions, Tetor, Salt-Rheum, Itchiness, Scurs, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sores Eyes, Erysipelas, Itch Scurf, Discolorations of the Skin, Tumors and Diseases of the Skin of whatever name or nature, are literally got up and carried off of the system in a short time by the use of these Bitters.

Plin, Tap, and other Worms, existing in the system, and which are effectually destroyed and removed. No system of medicine, no vegetable, nor all chemistries, will free the system of worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Vigor Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vital Blood whenever you find it impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is only your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

GREAT BRITAIN.

The Solicitor-Generalship.

The Indian Finance.

Destitution Increasing.

LONDON, April 12.—The office of Solicitor-General has been tendered to John Walter Huddleston, Q. C., but he has declined.

The House of Commons has passed a resolution that the district of London is increasing in population, and that according to official estimates, 4,376,000 persons in the districts of London, Chancery and Holborn are still suffering from destitution.

The Indian Government has ordered the construction of an iron light draught river steamer in England.

The Massachusetts Deadlock.

Destitution Increasing.

NEW YORK, April 13.—Thos. Corbett and Timothy Ledy having quarrelled about the payment of liquor which they had ordered while playing cards last evening, in 2nd street, the former fired five shots at the latter. After fatally wounding him, he beat Ledy's face and skull in a shocking manner with the butt of the pistol, and then fled. He has not yet been arrested.

A Washington dispatch says Butler intends to persist in his efforts to substitute the text of the Senate Currency Bill for that of the House. If he succeeds, the currency question will be by any manner of solution for the substitute will not be the actual Bill of the Senate, which lies on the Speaker's table and cannot be taken up in that manner, but only a House Bill in the same name.

The House has passed a bill to amend the act in relation to the duties of the Secretary of the Treasury, which will be taken up in the Senate.

tion. Mr. MACDONALD spoke at considerable length, with his usual acerbity, his chief topic being the reproduction, by the member for North Hastings, of extracts from his speeches when in opposition and when in power in Can-

The Premier was seriously very much irritated, and was somewhat restless in conversation. By implication, he conveyed Mr. Bowell for taking action, as the Ministerial authorities, who had jurisdiction, "who nobody can deny," had got out a warrant. He acknowledged, however, that Mr. Bowell had made out his case, and accordingly he felt constrained to issue the warrant for his arrest.

Mr. J. H. Cameron said the Premier had hardly done justice to the number for North Hastings, for the House would have been the greatest majority that had ever been in the House. No such opportunity had been offered the late Government as to have the present majority to arrest him. The fugitive member never came to Ottawa, never stood the trial and was not even in the House at the time of the House when the Premier came to power. Until now no charges were given for the fugitive. He proceeded to show that while an amnesty would have been given, if requested by the House, for political offences, none could have been given for the man guilty of Scott's murder.

Mr. Bowell denied that he uttered any words in the course of his speech that could give offence to the most sensitive member of the House, except when he spoke of the Premier's former speech on this subject. It was true he (Bowell) had his resolution prepared when he introduced the subject in the House, but it was from the deep conviction that the Government would not move over the conduct of this case to the Premier that he would undertake it. The Premier may have known when he charged the Premier that he would undertake it. The Premier may have known when he charged the Premier that he would undertake it.

TOWN AND VICINITY.

"LET US HAVE PEACE."—Town Council tonight.

Home.—A heavy storm of rain, accompanied by a cold easterly wind, was very dull in consequence.

Musical.—Miss Lora D'Arcy will give an organ recital, instrumental and vocal, in St. Thomas' Church this evening. Admission free.

Porten.—The Wesleyan Methodist School Council have decided to accept the indentment state of the weather, have postponed until tomorrow evening.

Big Fish.—A sturgeon, weighing 8 lbs. was offered for sale on the market this morning. A 10 lb. fish was sold on the market on Saturday.

Saw-Logs.—A number of saw-logs of last year's cut, which were hauled at Portland last fall, are now being floated down to the mills at the mouth of the harbor.

Lumbermen.—We understand that the prospect of the "drive" this season is brighter than the one of last year, and higher than usual. A week ago, the logs in these streams had not broken up.

Queen's Birthday.—The Queen's Birthday this year falls on a Sunday, and the question is being asked will be celebrated on Saturday preceding or the Monday following; the latter will probably be the day.

Saw Duty.—The tariff is full of saw duty from Mills up stream. Mill-owners will do well to prevent the escape of sawdust from their premises, as the Flaxby Overseer is about starting on his annual tour of inspection.

Contradiction.—Benedict & Clarke's Ministers publish a contradiction made by the Montreal Herald, in reference to the statements made by Mr. Begg, of the Brighton Hotel, concerning the troupe in our advertising columns on Friday last.

Personal.—Dr. Palmer, the worthy Principal of the Institution for the Deaf and Dumb, started this morning on his annual trip to his former home, in North Carolina. We trust that he will have a pleasant trip and a fund of enjoyment during his absence.

A Great Increase.—We are reliably informed that the value of fish taken in the waters of the Bay of Quinte and exported in 1893 was \$4,000; in 1892 it was \$31,000—an increase of 775 per cent. This shows that a very healthy change has taken place in this branch of industry.

A Change.—Archdeacon Patton having communicated to the St. George's Society that indisposition would compel him to forego his intention of preaching the annual sermon to the Society on Thursday next, Rev. J. A. Macdonald, of Montreal, A. M., has, at the request of the Society, kindly consented to officiate on the occasion.

Sugar.—The sugar season is generally said to have been a very poor one in this district, though, in spite of the poor yield of sugar, the price of "mills" are recorded. The best we have heard of is that of Mr. J. A. Vancott in Nightingale's bush, Huff's Island, where, from 405 tons, 700 lbs. of sugar and 18 gallons of molasses were taken this season.

Early Vegetation.—Notwithstanding the lateness of the present season, vegetation in some quarters is not so far behind as might be supposed. We hear of a beautiful field of corn, Mr. Joseph Nightingale's farm, Huff's Island, Prince Edward, which has put forth shoots which already reach eight inches in length, and bear no less than six leaves. Our informant would like to hear of a more precocious barometer than this.

A Tempest in a Tea-Pot.—There is war in the "Beverly State" of Arkansas—celebrated for its "ice-cream" (hog knives, resembling a Bowie knife) and for containing a capital which a Western farmer has placed in a very rapid way by a powerful strain of high quality in length. We don't know the merits of the case, but a Mr. Brooks and a Mr. Baxter each claims to have been elected Governor of the State, and each is seeking to get possession of 1,500 stand of arms, which are in the State Arsenal, but so far neither has succeeded. Mr. Brooks has possession of the State House, and the rival wants to drive him out of it.

Pickering Fishing.—The "close time" for pickering in the waters of the Meira and Quinte, as fixed by law, namely, from 15th to May 1st, has hitherto failed to afford the protection to these fish which it was intended to grant, seeing that pickering do not ascend the rivers until about April 20th to 10th, and return to the Bay about May 10th. Mr. Wilkins, Fishery Overseer, having communicated to the Department at Ottawa, asking to be allowed to fix the close time between April 20th and May 10th. This request was granted, and consequently no license will be issued until the date named, which restrictions will afford the necessary measure of protection to secure increase of this valuable fish, which of late years had begun to decrease, as many thousands were annually killed before spawning. Spawning and fishing with gill-nets are strictly prohibited.

Police Court.

(Before A. Diamond, Esq., P. M.)

MONDAY, APRIL 30.

The case against J. Hawley was proceeded with, and resulted in his being fined \$10 and costs.

ABRAHAM.

John Gordon, Jr., for assault on Wm. F. Taylor, was fined \$10 and costs.

Court of Chancery.

The following cases have so far been heard and disposed of in the Court of Chancery now sitting here:

CLARK vs. BAKER.—Bills regarding joint ownership in a schoolhouse, owned by Clark and Baker, Master at Belleville. O'Brien and Cameron for plaintiff; Wallbridge for defendant.

GILMORE vs. CAMERON.—Bills filed to secure a title, the late Mr. Camerun having been deceased to take debts and mortgages of partnership property in his own name, and some of his heirs being in dispute. Reference to Master at Belleville. O'Brien and Cameron for plaintiff; Wallbridge for defendant.

TOLLEY vs. McKENNA.—An injunction sought to restrain cutting of timber on certain lots, except for fuel, firewood and clearing. Injunction granted. Costs reserved. Douglas & Clark, Solicitors, Hodgins, C. O., and Clute, counsel for plaintiff; Francis, Solicitor, Wallbridge, C. O., counsel for defendant.

NEW CASES.

Several cases are already reported in the Court of Chancery.

The Quebec Spring is not expected to be so severe as the Montreal one.

The Royal Mail steamer recommence their trips eastward on Friday at Montreal.

Extensive and destructive inundations in Ohio are reported.

A prisoner escaped on Friday at Montreal, by string at the policeman who had him in custody.

Two military journals were found full of charges at the Court of Queen's Bench in Montreal for not being "on time."

A large steaming mill at Quebec, capable of cutting 800,

rapidly increased, and the number now on our Subscription Books is over 1,400. We have, thus, a large and general circulation throughout this and adjoining Counties, the "Warrior" consequently presents numerous advantages to advertisers.

For the Intelligence.
The "Citizens' Ball," Ottawa
MR. EDITOR,—I notice in Saturday's INTELLIGENCER, under the head, "Fr
Ottawa," as follows:
"Everybody is congratulating the citize
on the great success of their ceremonial
last night, at which at least 1,200 pers
were present. The names occupy two c
amins of the paper."

Now, I know a large number of persons and others who do not congratulate me on the great success of their torturation. There may have been at least 1,500 persons (that) were present, as to "the names" (which) occupy two-thirds of the papers, and there were numbers whose names were not published, "invited guests" who did not come, and not attend the Ball, being myself one of number. It is one thing to be invited, and another thing to accept the invitation; it is one thing to publish the names of the invited guests, but why not publish the names of those who attended? Then it would be known who did and who did not attend the Ball.

I proposed giving the use of the Ball Chamber for Mr. Speaker Cannon's Ball the first session of the Senate in 1867, and I proposed the motion to grant the Chamber to "The Ottawans" for the Ball which was held last Friday night. I believe if a portion of the citizens of Ottawa wish to dance, they should build a suitable place—then they should pay their own fiddler. The Parliament Buildings are the property of the whole people, and should only be used for the legitimate purposes of Legislation.

Yours, &c., &c.,

BILLA FLEMING

Ottawa, 20th April, 1874.

To the Editor of the Intelligencer

"Eagerly Contend for a Fourth Term."

DEAR SIR,—In replying to your correspondent's letter that appears in your issue of the 14th inst., I trust I shall not so far forget myself as to use any unkind personal remarks, but endeavor to expose the error that is introduced into our Church, be it the " Jesuit," or otherwise. As to the " Protestant" being superstitious, and who has read even the " secular" press knows that an increasingly large number within the pale of the Church of Rome repudiate the name, delighting to themselves " Anglo Catholics," so that it is now necessary to define to which class we belong.

Your Rev. correspondent is evidently unaware of what transpired at the Ec. Vestry meetings last week, or he would have known that our own Bishop, as he has had more than "mere reports" before him. He acknowledged that there were some ritualistic clergy in his diocese and that he had frequently counseled innovators, stating also, that, although he goes to much greater extremes, he is less than to do more than use "moral suasion." By the way, when reading his recent thought of the time when the same was determined to banish the black from his pulpit. He did not then say his inability to do more than use "moral suasion."

The books from which I quoted in last communication are entitled, "Path of Holiness," "The Spirit of Church," and "John Wesley and Churchmen." I do not see how could have been circulated as they unknown to any one but the "Jesuitic" clever men; "Jesuit" he must have placed them in our Church Depository, scatter them in Sunday Schools, and one of them distributed with instruction to the children *not to let their parents* "see" any of the books. I am sure you *will* give me no one be aware of it but he would have one book, teaching the inconsistencies of the Presbyterian or Baptist Church be thus sent from our stores!

I have before me *other* books to which would call the attention of your readers. One, "Steps to the Altar," was given to me, a young communicant by a well-known clergyman of this diocese. It is a treatise, I think, that the Lord's Supper is the sacrament, and directs the communicant to church. "Confessor who stands between God and you," and before receiving the sacrament to "Open your heart to him; and to ascribe all consideration of any part of weakness in him, you are to look to him only as he is a trustee from God, as commissioned by Him as His minister, deputy, to hear, and judge and absolve sins." The clergyman who circulated this is a "Jesuit!"

Another "The Priest's Prayer

used by more than one of our clergy, yet the same Body which was crucified, only sent to our sight under another name and that "The Bread and Wine be the Body and Blood of Christ, the power of the Holy Ghost through the consecration by the Priest." It declares Articulate Confession, directing "Priest" what pronance to fulfill; and prayers for the dead, etc., etc.

Are all those clergyman "Jesuits" who must have many amongst us, those who do not wish to have our "needing" Church handed over to their clerical merces, can scarcely be blamed publishing plain statements of fact.

But the only doctrine exposed in
previous letter, that your correspondence
particularizes as unscriptural, is the doctrine
of the Virgin. Are we to understand
therefore, that he sympathizes with
others? Does he consider *persecution*
confession to a Priest scriptural, and
"contravening the fundamental doctrine
of our church?"

Steaming Fodder.

MR. EDPORT.—A short time ago I came across an article in an American paper on the subject of steaming fodder for cattle. I have no publication, believing it may be of some use to our Dairymen and others who keep stock:

"At the meeting of the Massachusetts State Board of Agriculture, at Pittsburg, Mr. De la Motte, of Westboro, in making a report on the subject of feeding cattle, had a great desire to find some way of preparing my course fodder so as to make it more palatable to my cattle. I have watched the feeding of my cattle at Springfield for several years, and have been struck by the eagerness and invigoration his method, and I have felt satisfied that he was keeping his head cattle on less fodder than I was keeping mine. I was so much interested in my mind that I would try the experiment. I steamed my fodder the last part of the last winter, and I am pursuing the same course now, and I am well satisfied with the result. I have written a little article on the subject that I should abandon it; that there are those all around us who have tried

do the same; but I cannot now say what time will be, for the longer I do the more I approach the subject. I remember that in conversation with Mr. H. in regard to it, he informed me that he had been steaming the foot for his six years, and thought more of it every day.

"Such an opinion from one who had that experience, strengthened my faith, and I was not long in making up my mind to have a large box, mixed up as well as I could—as I should be to feed feeders thoroughly. I had it packed in straw, and run to the pipe from the boiler by a coupling, and steamed and cooked it thoroughly all day, with such measure of success that I was able to feed my horses by a couple, and straw and corn fodder, weighing my milk, that I could furnish the same to the horses, and I was able to save that four dollars a day, or about ten cents a head. And I can say this, I never saw cattle so perfectly satisfied "with what they were eating" as these horses were at any time; they are as ready to take a cone to the barn walls as a horse, or half a bushel of corn as a horse. Their appetites are perfectly contented, and thrive better than they did before, when I undertook to do this. I have fed them for the last season as good as the middle of November, steamed my food, and I am satisfied that it is great saving. I am satisfied that it will save me a great deal of money, and I am satisfied that they are as healthy,

then it is hurt as to have our corn cooked properly. It makes the corn soft, it makes it very palatable and it kills the germ, and it also kills the insects and it also kills the weeds. It is a very good thing to do in any other way.

Many of our more wealthy farmers easily supply themselves with the tubular boiler and the apparatus necessary to what has been done by Mr. Stone, or can at small outlay with a potash kettle, a large copper, wooden cover and wooden pipes create sufficient steam to cook fodder, even if not so well and thorough as by Mr. Strong's process, without saving of fodder with dairymen will at

thereby increase the earnings from farm.

And that father farmer who takes intelligence will be careful to peruse this article, and I hope they will try to find it as valuable as Mr. Stone has found it.

I shall be deeply paid by my readers sending a lot of praise.

Yours, etc.

Oswego, April 18, 1874.

Carry for *Inflammatory Rheumatism*. Half a pint of sweetened oilspice, in a pint of purified oil; bathe the affected, and a sound cure will speedily follow.

Cure for Croup and Whooping Cough.—A willow-tree bark to ash, mixed with sugar and applied to the throat will remove all croup or excessive cough in a few days.

How to Shiner.—When you get mustard paste, use no water whatever; mix the mustard with the white of an egg and the result will be a plaster that "draw" perfectly, but do not produce blister even if it is a case of an inflammation, as long it is allowed to remain for time. For this we have the best of our old and eminent physicians.

Three Little Children.

Three little children, three little children,
They sat alone by the bright wood fire,
The grey-haired dame and aged lady,
Drooping down on each wrinkled cheek,
They both had thought that they could not
Live.

As each hour uttered a sigh.

For their sad and fearful eyes

Three little children placed side by side

Against the sitting-room wall;

Old-fashioned enough as there they sat,

Their heads of hair and their wrinkled necks,

With their backs so straight and tall.

And the three little children

They were so old and so weary,

And with trembling lips they gently said:

"Mother, how only children

They bring on such and such a night,

We put them forever out of sight,

In the small dark room upstairs!

But she answered: "Fishes, no, not yet,

For I look at them, and then I forget

That the children were away;

The boys come back, and Mary, too,

With her apron on of checkered blue,

And all every day.

"Johnny will wait till a ship's tail mast,

And while the lantern bulleets cast

White light on the battle deck away;

At evening time three children pray

Go up to God from these little chairs,

So softly that no one hears.

"Johnny comes back from the bloody deep,

White waves from the battle deck deep,

And he says good night to me,

Mary's face and mother to move,

But a dim child whose play is over,

And comes to rest on my knee.

"But let them stand there, though empty now,

And every time when alone we bow

In the Father's throne of glory;

We'll ask to meet the children above,

In the Father's house of rest and love,

Where no children goth away."

No. 303.

The Gambler's Wife.

Dark is the night! How dark! No light! No
fire!
Cold on the hearth the last faint sparks expire
Silvering she watches by the cradle side
For him who pledged her love—last year
bride!
"Mark! 'Tis his footstep! No! 'Tis past, 't

Tick-tock! "How wearily the time crawls on!"

Why should he leave me thus? He once was
And I believed 'twould last! How mad! How
bilia.

"Rest thou, my babe—rest on. 'The hungry
cry;
Sleep—for there's no food! 'The frosty dais
Famines and cold their wearying work be-
come!"

My babe must break! And then ("The clock
strikes one.

"Hush! 'tis the dice box I see, he's there, there!
there!"

For this, for this leaves me in despair!
Leaves love, leaves truth—I his wife! his love
for what?

The

"Yet I'll not cross him. No, 'tis all in vain
To long to wait, but sure he'll come again
And 'twain be one, as 'twas before, you,
My child—his child—O God!"—the
strikes two!

"Hark how the sign-board creaks—the
bows by;
Mead, moans! A dirge swells through
cloudless sky
He'll be here! Knock! he comes! he comes!
He'll be here!
'Tis but the lattice page! The hope is o'er!
He can desert me thus? He knows I stay
Night after night, loathsome to prey!
For his return—and yet he sees no trace!
No, no. It cannot be. He will be here.

"Nestle more close, dear, draw me to me.

Thou'st not child thou'st fretting! but we
not part.
Husband T' die!—Father, it is not he
On, O, protect my child! the clock strikes
three

They're gone, the glimmering spark had
The wife and child are numbered with
dead! — *Ex. R.*
On the cold hearth outstretched in soli-
tude,
The babe lay frozen on its mother's breast.

The gambler came at last—but all was o'er
Dread assistance relieved around, the clock struck
four!

The Escape of Rochester.
The Duke's *Prætor* gives the subject

the group had at first hesitated to accept the proposition, not feeling very strongly disposed in the policy of the convict. But after being asked to take part in the plot, accepted, and promised 10,000 francs when they arrived at Sydney. The escape effected by swimming 500 yards, as well as the flight to the United States, was at that distance. What passed in Paris was last Sunday at midnight, Mr. Mond Adam, Deputy friend of Rochefort, guardian of his children, received from the stralla a telegram in English, dated May 26, 7, in the morning, and read as follows:—

"I request you will beg Mr. Pedro to crack" by telegraph with a thousand sterling on Sydney.—HARRIS.

M. Pedro Gill is the representative of Oriental Bank Corporation of London, and has a branch at Sidney. On Tuesday, 9 o'clock, M. Adam received another letter, which, however, only repeated the first one by another name, and had done so in the same way, having left out the same day as the other—namely, Friday. He had taken one day more to reach its destination. M. Adam sent telegraphically to the collector 35,000 francs collected by him in twenty-four hours. Victor Hugo distributed 8,000 francs, the *Republique* the *Kapoor* as much, and various firms completed the amount.

The *Soleil* gives the subjoined:—

I learn by a letter which reaches me

Lons, that the escape of the French vessel has already led to an exchange of notes between the Cabinet of Versailles and that of St. James'. According to it, the formation of the English Government vessel was a French one, fitted out by the friends of the prisoners, and having on board a crew of twenty five men, quitted Lons to fight if necessary. That the vessel was to be carried off by the English number, but that the moment it was sighted could be ready, the others were engaged in a piece of work assigned to them. The craft in question, the English authorities declare, had fraudulently hoisted the British flag; but the French ministry believes it can prove that the vessel

equipped and prepared in a British manner and that the Government there could be ignorant of its destination; also, as the escape took place under the protection of the flag of England, that country should be held responsible."

Host Race for the Champions of America.

All arrangements have been made by George Brown, of Littleton, and Wm. Seligman, of Pittsburgh, to row a five-mile race for the 1000 and the championship of America. The race is to take place at Springfield, Mass., in June. They are to row five miles, to submerge and to be in a small boat. Brown has sent on a deposit to Frank Kelly and covered the amount recently payable.

First championship boat race rowed in country since Walter Brown defeated Oler at Pittington in 1894. Richard belongs to the Melrose Club of Pittsburg. He came home promising by defeating Hauler, of Haverhill, in 1900. A side. New York boaters think he is no match for Hrows, who won the championship of the British Province last summer by defeating John Biglin in a five-mile race for \$1,000. It is the intent of New York sporting men to match Brown to row the winner of the forthcoming test.

VINEGAR BITTERS

VEGETABLE FREE FROM

PURELY CALIFORNIA ALCOHOL

FOREST

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a most valuable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada. The medicinal properties of these herbs are so richly extracted therefrom without the use of Alcohol. The question is almost daily asked, "Why is it that the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and thus they preserve his health. "They are the great blood purifier and a life giving principle, the perfect health-giver, and the restorer of the system. Never before in the history of the world has a medicine so comprehensively covered the requirements of VINEGAR BITTERS in healing the sick of every clime and in every clime. They are a good Purgative, a powerful, rolling Convector or Indemnifier of the system."

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim **VIN. EGAR BITTERS** the most wonderful Liniment that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted over.

Bilious, Remittent and Inter-mittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, and those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Rio, Alabama, Sacramento, Snake, Snake, Snake, and many others, and their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative course, especially of great influence upon these various organs, is essentially necessary. There

the enthusiastic for the purpose equal to
Dr. W. A. Wills' **VINEGAR BITTERS**,
as they will speedily remove the morbid
acidic viscid matter with which the
bowels are loaded, at the same time
regulating the secretions of the liver,
and generally promoting the healthy
functions of the digestive organs.

Fortify the body against disease
by purifying all its fluids with **VINEGAR**
BITTERS. No epidemic can take hold
of a system thus fortified.

Dyspepsia or Indigestion, Head-
ache, Pain in the Shoulders, Cough,
Tightness of the Chest, Dizziness, Sour
Eructations of the Stomach, Bad Taste
in the Mouth, Bile in the Urine, Inflam-
mation of the Heart, Inflammation of the
Lungs, Pain in the region of the Kid-
neys and a hundred other ailments,
are the offerings of **Dyspepsia**

One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil. White Swellings, Ulcers, Erysipelas, Strained Neck, Glands, Mercurial Inflammations, Indolent Sores, Scrophulous, Mercurial Affections, Goiter, Eruptive eruptions, Eruptions of the Skin. In these, as in all other constitutional Diseases, WALKER'S VERMILION PILLS have shown their great efficacy, and are the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism. Cold, Bilious, Remittent and Intermitting Fevers, Diseases of the Blood, Liver, Kidney and Bladder. These Diseases have no equal. Such Diseases are caused by Filthy Blood.

Mechanical Diseases.—Persons affected in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and

ing they advance in life, are subject to the parasites of the forehead of the head. To guard against this, take a dose of WALKER'S Vaseline occasionally.

For Skin Diseases.—Eruptions, Tetter, Salt-Rheum, Blisters, Scabs, Pimples, Acutules, Boils, Carbuncles, Ring-worms, Itch, Head-ache, Ring-worms, Erysipelas, Itch, Scabs, Discoloration of the Skin, Humors, and Diseases of the Skin of whatever nature, are literally cured by the use of this ointment. Apply it day and night, and the system is kept dug up and carried out of the system in a short time by the use of these Bitters.

Plu, Tape, and other Worms,—Living in the system, and which are not sufficiently destroyed and removed, by the system of medicine, no verminages, no annihilation will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or in the decline of life, these Bitters have proved so decided an influence

improvement is soon perceptible.

Cleanse the Vilitated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; remember when you find it obstructed and sluggish in the system; cleanse it when it itches; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

The Jews of Roumania.
The Roumanian Jews have signed a pe-

tion to the Chamber of Deputies asking for the removal of the political and civil disabilities. The document sets forth the injustice of the treatment they receive, and asserts that in all civilized countries where the Jews have been admitted to civil and political liberties they have not been behind their countrymen of other faiths in science, art, or political

They complain that they cannot hold property or till the soil, nor even own houses in which they live. They are shut out from the learned professions, excluded from several industrial and commercial pursuits, and in the army, where there are several thousand Jewish soldiers in the ranks, they are despised and despotic.

petitioners claim that the ill-treatment they receive is in direct opposition to the spirit and letter of the constitution which, in art. 21, declares liberty of conscience to be unrestricted, and guarantees the freedom of religions. The document, which is couched in the most eloquent and respectful

and is quite devoid of passion, concludes with prayer that the political and civil disabilities of the Roumanian Jews may speedily removed, and as they pay the same taxes and are under the same obligation as Roumanian citizens, that they may be granted equal rights and prerogatives.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and a small tear near the top center. A dark, irregular stain is visible along the bottom edge, possibly from a binding or another page. The overall tone is warm and vintage.
